Star glasses

Print at 100% / Actual size. Cut around the outside, leaving a small white edge.

Size check: this line should measure 2 inches / 50.8 mm.

Print on card your printer accepts. Cut eye openings with adult help.
Tape a blunt paper straw or craft stick to the back; keep the end below the face.
An adult should cut and assemble. Keep small parts and sticks away from young children.
Personal events: print as many copies as you need. Do not resell or redistribute files.
